

## Meritor Part

Meritor Part - The Meritor Company is a leading international dealer founded upon 100 years of tradition of service and quality. Meritor focuses on integrated systems along with several modules and parts to the original machine manufacturers and aftermarket equipment within the transportation and industrial trades.

Meritor values the needs of their clients to guarantee their success while priding itself in the company's unique energy and thinks this output of energy to be their aggressive advantage in their worldwide operations. Meritor starts with a philosophy which values diversity of individuals and their broad thought processes. Operating in 19 countries and hiring over 11,200 individuals, Meritor encourages collaboration and innovation among a team of knowledgeable experts.

By only hiring future focused people, Meritor strongly thinks these top-caliber workers will be able to quickly get used to to changing environments and exhibit the commitment and performance considered necessary to be able to achieve results in the competitive materials handling business. The company empowers their teams to make sound business decisions to be able to enhance the overall success of the company. In return, Meritor provides all their workers different possibilities for personal and professional growth.

Their Advanced Engineering team is at the forefront of parts and system engineering that consist of drivelines, axles, suspension and braking systems designed for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is likewise responsible for supporting the needs of all their international engineering employees.

The Quality team at Meritor is a customer-focused and dynamic group that is committed to ensuring optimum growth at their production plants and aftermarket distribution facilities which are situated on 5 continents and in 19 nations.

The supplier development network is specifically located to support new business development. Regional teams are supported by worldwide centralized specialties, initiatives and quality systems in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making within each aspect of the business. The DFSS or Design for Six Sigma ensures product reliability within each region. The team is even comprised of transactional Green Belts who use Six Sigma tools to business processes and implement lean techniques.
